

Support & Expectations

STUDENT SUPPORT

Online Instructors

Online instructors grade assignments and provide help with course material. They should be a student's first point of contact for questions about a course.

BYU-Pathway Support

BYU-Pathway Support helps with technical issues, such as academic advising and all other questions related to PathwayConnect and BYU-Pathway Worldwide. They can be reached at pathway.lds.org/help.

Free Tutoring

PathwayConnect students have access to free tutoring for most academic subjects. Tutoring information is found within a student's PathwayConnect course.

STUDENT EXPECTATIONS

Gathering Attendance

Attendance at first-semester gatherings comprises 30% of the students' overall course grade. Emergencies should be addressed directly with a student's online instructor.

Daily Access to Courses

Students should log in to their online courses regularly to ensure readings, quizzes, discussion boards, and other assignments are completed on time.

Time Commitment

The average student should plan to spend approximately 15–20 hours per week on coursework. (Some students may need more time.)

Lead Students

Most students will have the opportunity to conduct a weekly gathering as a "lead student." Sample lesson plans and other tools are found in the "Lead Student Tools" folder within the students' course.

Honor Code

PathwayConnect students should strive to live the BYU-Idaho Honor Code. Living these standards will provide students with an added measure of the Spirit and contribute to the overall culture in their gatherings and courses.
